

## Capabilities Statement

View Climate™ Adhesive explainer video [here](#)

**Core Competencies:** Made in the U.S.A., Climate™ Adhesive fills a critical construction industry gap in **built environment climate resilience** and adaptation technology. Climate™ Adhesive **significantly reduces structural vulnerabilities to both seismic and violent-wind events** via industry-changing performance.

Climate™-enhanced light-frame wood structures demonstrate:

- **250%+ LOAD-ABSORBING STRENGTH &**

- **950% JOINT ELONGATION (DUCTILITY)**

WHEN COMPARED TO INTERNATIONAL BUILDING CODE NAIL SCHEDULES ALONE.\*

- **OUTPERFORMS MECHANICAL HURRICANE STRAPS BY 2.5 TIMES\***

**Differentiators:** Non-toxic Climate™ uniquely helps federal milcon projects comply with:

- several categories within DOD's [Climate Adaptation Plan](#)
- **Executive Order 14057** (12/8/21) & **Office of the Inspector General's** 2024 scrutiny of DOD milcon resilience
- **Easily accessible price point: small investment for outsized enhancement** of troop and equipment readiness
- **Moisture-curing down to 32 degrees Fahrenheit**, cures in 3-7 days – full strength at 30 days
- **Certified:** FEMA P-695, California Prop-65, American Plywood Association AFG-01 (extant floor adhesive code)

### Company Data:

Accepting government purchase cards.

**CONTACT** Kristin Corra, Business Development, (248) 924-9699, [kristin@climateadhesive.com](mailto:kristin@climateadhesive.com)

UEI: **LCQ5CCW4EDH4**

CAGE Code: **9RYL2**

NAICS code: **325520**

PSC: **8040**

Address: **2734 Miller Road, Kalamazoo, MI 49001**

Phone: **+1 844-450-9604**
